Optional configurations

- 1000 litre (26.4 US gal) capacity
- 1200 mm height
- 600 mm width
- 40°C/104°F max. recommended water temperature
- 10-100 l/min (2.6-26.4 US gal/min) flow range
- 1-10 bar pressure
- 1000 l/min flow
- 10000 l/min max. flow
- Top connections
- Top installation

DansPar MP 500 is a portable water filtration system that can be used in a wide range of applications. It is designed to provide clean, filtered water for drinking and other uses. The system is easy to use and maintain, and it is available in a variety of configurations to meet your specific needs.

Features and benefits

- Compact and lightweight design
- Easy to use and maintain
- Available in a variety of configurations
- High flow rate
- Long service life
- Low operating costs
- Portable and easy to transport
- Suitable for use in a wide range of environments
- Available in a variety of colors
- Suitable for use in a wide range of applications

Notes

- Always use clean water
- Always use clean filters
- Always use clean containers
- Always use clean hands
- Always use clean clothes
- Always use clean shoes
- Always use clean socks
- Always use clean underwear
- Always use clean pajamas
- Always use clean nightgowns
- Always use clean towels
- Always use clean linens
- Always use clean bedding
- Always use clean curtains
- Always use clean drapes
- Always use clean upholstery

Dimensions

- Height: 1000mm
- Width: 500mm
- Depth: 150mm
- Weight: 10kg
- Volume: 100 litres
- Flow rate: 1000 l/min
- Pressure: 1-10 bar
- Connections: Top
- Installation: Top
